

## Simple Instructions from

[KAZOOS.COM](http://KAZOOS.COM)

(If you don't get a sound, try saying a word like "who" in the kazoo.)

The kazoo is in the family of musical instruments called, "mirlitons". These instruments make their sound by sympathetic vibration with the human voice. The sound of your humming voice causes the wax paper resonator to vibrate in the kazoo, and the shape of the kazoo helps amplify and project the sound.

**CAUTION:** Coninued Kazoo Playing Can Be Very Annoying  
to Parents and Sisters
